

Disability Insurance is paycheck insurance.

How would you pay your mortgage, childcare, bills, etc. if you became disabled?

Most people have no idea they have a 1 in 4 chance of needing disability insurance at some point in their career before retiring¹! The PSEA Health and Welfare fund has recognized that some Pennsylvania school employees lack the coverage they need. That's why they endorse this plan.

If you can financially survive without your paycheck then you don't need this plan. But if you are like the typical person, disability insurance is a need, not an option.

Write in your enrollment deadline, meeting times, etc. here.
